Net profit: AED 512,000

Budget and cash

Budgeted revenue: AED 4,000,000

Closing cash balance: AED 2,350,000

Management commentary

Revenue exceeded budget, driven mainly by the new regional distribution contract signed in February. Freight costs remained elevated and are the main pressure on gross margin.

Marketing spend was kept below plan while the brand refresh was postponed to Q2.

Risks

Key risks for the coming quarter are fuel price volatility, a concentration of 28 percent of revenue in two customers, and delayed payments from public-sector clients.
